MASTER'S KEY STRENGTHS

Acquire an advanced academic training geared towards research in economics and learn about public and private economic stakeholders' decision making.

Benefit from a diversified curriculum with a strong content in advanced quantitative methods during a two-year programme taught in English.

Learn innovative techniques in large datasets processing and complex economic problems programming.

DEGREE LEVEL: BAC + 5

DAUPHINE MASTER'S: Grand Établissement Master's degree

DURATION: 4 semesters / 120 crédits ECTS

ORGANIZATION: Initial training

HEAD OF PROGRAM: Lise PATUREAU
University Professor
Main Opportunities

- PhD in Economics, Research economist in academic institutions
- Data analyst
- Data scientist
- Consulting in public and private companies
- Professional economist in ministries, parastatals (central banks), international institutions (IMF, OECD, ...), financial institutions (banking, insurance) and large private sector companies

Dynamism and International Openness

- A strong content in quantitative methods that includes massive data processing.
- A high-quality program in economic research within PSL Graduate Program in Economics.
- Taught entirely in English and aligned to the best international standards.
- Exchange and internship opportunities worldwide thanks to QTEM’s network of universities and companies.
OVERVIEW OF THE PROGRAM

FIRST YEAR OF THE MASTER IN QUANTITATIVE ECONOMICS

General training in Economics:
Macroeconomics, Microeconomics, Econometrics, Game Theory

SECOND YEAR OF THE MASTER IN QUANTITATIVE ECONOMICS

"Quantitative Economic Analysis" track:
choose among 3 specialization fields
Economic Theory, Social & Public policies, Macroeconomics & Finance

"Digital Economics" track:
Up-to-date methods for analyzing economic data
in the various fields of Finance, Network economics, Marketing...

PSL GRADUATE PROGRAM & AQME CERTIFICATE

The Master in Quantitative Economics allows interested students to acquire the Certificate in Advanced Quantitative Methods in Economics (AQME) of the PSL Graduate Program in Economics.

The AQME certificate is based on a 2-year training (M1 Quantitative Economics - M2 Quantitative Economic Analysis) for students who plan to pursue their PhD. The theoretical part consists on validating courses and applications focused on advanced quantitative methods in economics. All certificate courses are included in the Master in Quantitative Economics. Obtaining the AQME certificate also asks for a research internship in a research center attached to a university, an international organization, or an administration in M1 or M2. The objective is to allow interested students to have a first experience in a research environment as early as the Master's degree.
AN OPEN DOOR TO RESEARCH AND INTERNATIONAL CAREERS

This programme strives to train top-level economists, open-minded and responsive to challenges to contemporary economy. Geared towards excellence, this cursus enables students to either pursue PhD programmes worldwide or apply to economist careers within private and public sectors, Ministries, and international institutions.

INVOLED PARTNERS

Worldwide exchange program within QTEM’s international network of universities and companies (Quantitative Techniques for Economics and Management).

Interactions with Paris Dauphine - PSL University’s research centres: LEDa (Economics), DRM (Management and Finance), LAMSADE (Computer Sciences), CEREMADE (applied mathematics) and Mines ParisTech (Economics).

APPLY

WHO CAN APPLY ?
— Students from France and abroad who hold a bachelor’s degree or equivalent diploma within a relevant field of study (such as economics, mathematics applied to social sciences, IT applied to economics)
— For students from EU-universities: Fluency in English attested by either TOEFL-iBT results (min 90), IELTS (min score 6.5), GMAT or GRE results (min 650 in GMAT equivalent)
— For students from non-EU universities: GMAT or GRE results (min 650 in GMAT equivalent)

HOW TO APPLY ?
— Application should be made on: candidatures.dauphine.fr
— All information is available online

MASTER IN QUANTITATIVE ECONOMICS

TRACK
QUANTITATIVE ECONOMIC ANALYSIS

Training
INITIAL

This programme delivers high-quality academic training for economic research, allowing an in-depth analysis of a broad spectrum of contemporary economic problems. Taught in English, the cursus provides a strong content in advanced quantitative methods, including innovative methods in massive data processing. It allows students to pursue either PhD programmes or professional economist careers in the private and public sectors.

OVERVIEW

232 hours
Two semesters, of 12 weeks each

3 specialisation fields
Economic Theory, Social & Public policies, Macroeconomics & Finance

Master thesis during the 2d semester

30 students

CURRICULUM

Joint mandatory courses:
— Machine Learning
— Information economics
— Advanced econometrics

Specialized courses’ themes:
— Public policies in Health, Labor, Development economics
— Individual and collection decisions in strategic environment
— Business cycles & stabilization policies

TARGET COMPETENCIES

— In-depth knowledge of contemporary research problematics in your chosen specialisation track, in addition to a command of fundamental economic concepts
— Excellent aptitude to master advanced quantitative tools for processing and analysing datasets, including massive datasets

OUR STRENGTHS

— Enroll in a high-quality cursus in economic research and acquire the certificate in Advanced Quantitative Methods in Economics of the PSL Graduate Program in Economics
— Obtain a master’s degree with strong international visibility: Aligned on international standards, entirely in English, and with a strong content in advanced quantitative methods
— Acquire a deep understanding of the public and private sector economic stakeholders’ decision-making process
— Master advanced quantitative techniques, including innovative methods in large data processing
GRADUATE PLACEMENT

Enroll in a doctoral program, in France and abroad
— Embrace a career as Professional economist in the public and parapublic sector (government, central banks) and international institutions (IMF, OECD, …)
— Get a position as quantitative economist in private businesses from various sectors: banking, insurance, consulting, health industry, energy

INTERNATIONAL

All classes are delivered in English

PREREQUISITES

— Students from France or abroad who hold a master’s degree equivaling to 60 ECTS credits in a relevant field of study such as economics, mathematics applied to social sciences, computer sciences applied to economics
— For students from EU-universities: Fluency in English attested by either TOEFL-iBT results (min 90), IELTS (min score 6.5), GMAT or GRE results (min 650 in GMAT equivalent)
— For students from non-EU universities: GMAT or GRE results (min 650 in GMAT equivalent)

ADMISSION PROCEDURE

— Apply online on the MyCandidature application: candidatures.dauphine.fr

PHD RESEARCH TRACK

Possibility for students in Master 1 Quantitative Economics and Master 2 Quantitative Economic Analysis to follow the PhD Research track of the PSL Graduate Program in Economics
The PhD research track: A 2-year training with advanced courses in economics and research internship opportunity

APPLY

OTHER SPECIALIZATIONS FOR MASTER 2nd YEAR

— Digital Economics
Training

INITIAL

This cursus provides expert training in digital economics and methods for analyzing massive data. Taught in English, the program aims to train quantitative economists in processing and modeling large, complex datasets to shed light on the decisions of businesses and institutional stakeholders.

OVERVIEW

300 hours
Courses from September to April

Mandatory internship
4 months at least

30 students

CURRICULUM

Joint mandatory courses:
— Machine Learning
— Ethics, algorithm and data
— Digital currencies & Blockchain

A pedagogical team made of academics and practitioneers, from start-up firms to multinational companies

OUR STRENGTHS

— Implement statistical and econometrical tools to obtain solid and reliable answers, allowing the enlightenment of companies and institutions' decisions
— Learn about quantitative methods for processing massive data
— Interpret and report on the results of economic, statistical and/or econometric results to different audiences, orally and in writing

TARGETED COMPETENCIES

— Expertise in digital economics
— Knowledge of data access' legal and ethical frameworks
— Expertise in massive datasets analysing and processing methods
GRADUATE PLACEMENT

Data analyst
—
Data scientist
—
Consultant in private and public companies
