Overview

European economic law focusses on the EU rules regulating the states and private firms operating in the single market. The European Economic Law course covers the central aspects of European Market Law : the four fundamental freedoms contained in the Treaty of Rome but also more recent areas of European economic integration : European tax policy, monetary and capital union. The course is interactive and encourages students to actively participate in their own and others' learning experience, to undertake collaborative group work and personal research.

Prerequisites

Basic knowledge in law (even only national) and in economics.

Course Objectives

The aim of this course is to provide an in-depth understanding of European economic integration and its current challenges, through an overview of the fundamental rules constructing and regulating the European internal market.

Learning Outcomes

Knowledge of the main Treaty provisions and case law concerning the four market freedoms
Understanding of the legal specificities of European market integration
Understanding of the challenges for European and national legal orders raised by the European market integration processes

Mode of Assessment

50% group presentation and individual class participation
50% final written exam

Grading

The numerical grade distribution will dictate the final grade.

Class participation: Active class participation – this is what makes classes lively and instructive. Come on time and prepared. Class participation is based on quality of comments, not quantity.

Exam policy: In the exam, students will not be allowed to bring any document (except if allowed by the lecturer). Unexcused absences from exams or failure to submit cases will result in zero grades in the calculation of numerical averages. Exams are collected at the end of examination periods.

Academic integrity

Be aware of the rules in Université Paris Dauphine about plagiarism and cheating during exams. All work turned in for this course must be your own work, or that of your own group. Working as part of a group implies that you are an active participant and fully contributed to the output produced by that group.
