Course description and objectives

This course is designed as an introduction to European Human Rights law. Students will discover the working of the Council of Europe, Europe's oldest and leading human rights organization, and its judicial arm, the European Court of Human Rights. A focus of the course will be the European Convention on Human Rights which will celebrate its 75th anniversary in 2025. Students will also discover some of the key articles of the European Convention on Human Rights and two transversal topics: Artificial intelligence and new technologies and climate change.

Prerequisites

At least two years of law.

Learning outcomes

- Students will develop an understanding of the Council of Europe and its human rights protection system, in particular the European Court of Human Rights. Students will have an understanding of the structure of the European Convention on Human Rights, its main articles and general principles of interpretation.
- Students will analyse two contemporary challenges: New Technologies (including Artificial Intelligence) and climate change through the prism of European human rights law.
- Students will become familiar with judgments of the European Court of Human Rights.

Assignments and grading

- Oral exam (10/20 minimum to pass) - Presentation of a case of the European Court of Human Rights
- Participation in the class: 10/20 minimum to pass.

Class participation: Active class participation – this is what makes classes lively and instructive. Come on time and prepared. Class participation is based on quality of comments, not quantity.

Exam policy: In the exam, students will not be allowed to bring any document (except if allowed by the lecturer). Unexcused absences from exams or failure to submit cases will result in zero grades in the calculation of numerical averages. Exams are collected at the end of examination periods.
